ABAC AIR COMPRESSORS

Suitcase

the hand-carry compressor

The hand-carry compressor

Suitcase

ABAC designers have significantly thought about the innovation of Suitcase air compressor. This important step over has been achieved both through high-performances ratio and user-friendliness. The power you are looking for is now at your fingertips.

Always with you
Light and easy to carry

Simple storage
Tool compartment

Plug and play
ON-OFF Botton

User-friendly
Easy to read and suitably positioned regulators

Comfort
Solid shock absorber feet

Flexibility
Universal air outlet

SUITCASE 6
1.5 HP, 6 liters

Applications

All models

- Inflating
- Blowing
- Painting
- Air/water spraying

Suitecase 6 only

- Gravity painting

Volt 230/50/1

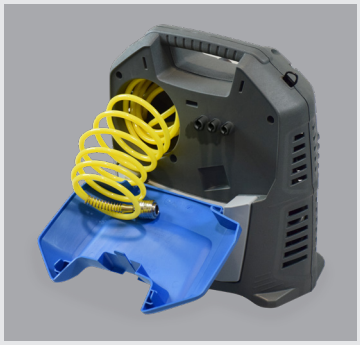
SUITCASE 6	UK	2236115862	8024900711264	6	160	5.6	1.5	8	68	88	325x233x536	10

Designed to work efficiently both in vertical and horizontal position.

Smart flap for your tools storage. Be always ready.



Spiral hose with universal tools mount.

Extra shock absorber feet for horizontal use.

Ease of use and compactness are the most notable attributes behind new ABAC Suitcase air compressor.
The times in which you were struggling to bring compressed air where needed are over. Suitcase weighs only 10 kg and can be effortlessly transported with an anti-slip handle everywhere you want.

There is a double set of absorption feet to the point, so that Suitcase can be also placed both vertically and horizontally, being even closer to your requirements.
Although transportation and ease of use are fundamental, compressed air has to be delivered too and this why you are provided with universal air outlet, a spiral hose included and a vain where to store air-tool.

Extra small sizes are not reflecting the performances of ABAC Suitcase which offers on the contrary important air displacement of 160 l/m, 8 bar pressure and relies on 1,5 HP engine power.

SUITCASE 0
1.5 HP
